# HAMZAH AHMAD

Chennai, Tamil Nadu

✉ hamzah001ahmad@gmail.com linkedin.com/in/hamzah-ahmad-10334124a ■ +91 83681 12132

## EDUCATION

**SRM Institute of Science and Technology** Chennai, Tamil Nadu

*Bachelor of Technology – Computer Science and Engineering* *2022 – 2026*

## EXPERIENCE

**CSIR – Indian Institute of Petroleum** Dehradun, India

*Software Development Intern* *Apr 2026 – Aug 2026*

- Developed the **Docking and Prediction System**, a full-stack web application for tracking R&D projects, milestones, funding agencies and project closures for the RPPM Division.
- Designed a normalized MySQL database with 8 tables and a SQL view for project overview reporting.
- Built 35+ REST API endpoints in Node.js and Express.js for CRUD operations on projects, employees, divisions, funding agencies and milestones.
- Implemented JWT authentication with token refresh and revocation on logout.
- Implemented role-based access control for 4 roles (Admin, Data Entry Operator, Project Lead, Viewer) in API middleware and React frontend routing.
- Built a bulk Excel/CSV import module using Multer and SheetJS with row-level validation, duplicate checks, preview before commit, and MySQL transactions with rollback on failure.
- Maintained an import history log with filtering and CSV export for auditing.
- Developed dashboards with Recharts (bar, line and pie charts) to report project status, cost and revenue.

## PROJECTS

**Cryptocurrency Price Predictor** Aug 2024

*Tech Stack: Python, JavaScript, HTML, CSS, REST APIs*

- Developed a web application to predict Bitcoin price trends using prediction algorithms implemented in Python.
- Integrated real-time cryptocurrency APIs to display live and predicted prices on a web dashboard.
- Stored API keys and configuration securely using environment variables (.env).

**Movie Recommendation Website** May 2025

*Tech Stack: Node.js, JavaScript, HTML, CSS, REST APIs*

- Developed a movie recommendation website that suggests movies based on user preference data.
- Implemented the recommendation engine in Node.js and exposed results through REST API calls.
- Built the user interface with HTML, CSS and JavaScript for an interactive user experience.

## SKILLS

- **Languages:** JavaScript, Python, C++, SQL, Java (basic)
- **Frontend:** React.js, React Router, HTML5, CSS3, Recharts, Vite
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Multer
- **Database:** MySQL (schema design, joins, views, transactions)
- **Tools:** Git, VS Code, npm, SheetJS (xlsx), Postman

## CERTIFICATES

- **AWS Certified Data Engineer – Associate – Hands-On + Exams** *(Udemy)* *Jul 2025*
- **Software Development From A to Z – Learn What Truly Matters** *(Udemy)* *Jul 2025*

## INTERESTS

- Tech Enthusiast
- Web Development
- Formula 1
